

High Temperature Fixed Points CCT-WG5 research plan - Progress and prospects

Venue: Tempmeko&ISHM 2010, Slovenia, 4th June 2010
Time: 14:00

Meeting sponsor: CCT-WG5

Organiser: Graham Machin

Introduction

The HTFP research plan of the CCT-WG5 has now been in process for about four years. In that time tremendous progress has been made in this field, witnessed by the many papers at this, Tempmeko '07 and Tempbeijing '08 conferences. This meeting is organised to take stock of the progress with the CCT-WG5 research plan and to initiate the next steps, to ultimately to bring it to a successful conclusion in 2012/13.

Agenda

1. Opening of meeting
2. Introduction of participants
3. Overview of progress with CCT-WG5 research plan (GM)
4. Progress reports from individual workpackage leaders
 - a. WP1 (MS)
 - b. WP2 (YY)
 - c. WP3 (PB)
